

COP 4600 Operating Systems – Homework 0  
George Brewster  
[gtbrewster@ufl.edu](mailto:gtbrewster@ufl.edu) - shared

My C programming background consists of  
COP 2220, “Intro to Programming”, at FAU  
in the summer of 2015.

I have taken a course in Java, then two  
courses in C++.

I have taken intro to computer organization,  
CDA 3101.

I have not taken microprocessors.

I am from Palm Beach Gardens, FL.  
I enjoy video games of all kinds, but diablo  
is where it all started. I like outdoor  
activities such as skateboarding, football,  
and fishing/hunting. I live near the ocean so  
boating and diving is right down the street.  
I like animals and nature. I have a pit bull  
named Dino. I am a happily retired Office  
Furniture Installer of 12 years. I hope to  
make some games one day after all this  
school work.
